Share your story and use our hashtag #mynanorarestory:

[Detail your nano-rare disease story]
If you want to share your nano-rare
story visit [tag n-Lorem social media
platform] website: nlorem.org
#mynanorarestory

Share a photo of yourself/your family

- Your name and the state you live in.
- The nano-rare disease you are affected by.
- What does sharing your nano-rare story mean to you/your family?

Post Examples

1

A patient is considered nano-rare if they have a genetic mutation that affects less than 30 individuals in the world. [My family] will be raising awareness for these patients who often have no therapeutic options and supporting the development of a medicine designed just for them: www.nlorem.org #mynanorarestory

2

Did you know that a nano-rare patient could be the only patient in the world with their mutation? Your support will help nano-rare patients today get closer to an experimental medicine developed just for them: www.nlorem.org [tag n-Lorem on the social media platform of your choice]

3

Since 2020, The n-Lorem foundation has created a community unified for one goal: providing treatment for nano-rare patients, for free, for life. [I am/my family/organization is] excited to support the [tag n-Lorem on the social media platform of your choice] mission to discover, develop and provide help for nano-rare patients! Learn how you can support: www.nlorem.org/donate
